

BRIGHTEN-ALL

Reversible Polish Mop

The Best Reversible Combination

POLISH AND DUST MOP

IN THE WORLD

A FELT SURFACE which contains Brighten-All Polish for the cleaning and renewing of hardwood floors and all polished surfaces.

TWO SURFACES

THREE RESULTS

A YARN SURFACE which is chemically treated, removes all surplus polish, brightens the surface, and will not stain rugs or other fabrics with which it comes in contact.

FOR ONE PRICE

SAFETY DUST-FREE
CLEANS POLISHES PRESERVES
ALL VARNISHED SURFACES
THE PERFECT PIANO AND AUTO POLISH

THE BRUSHLESS VARNISH APPLIED WITH A CLOTH
THE MODERN WAY

All varnished surfaces in time grow cloudy, blue, and dull. Autos, carriages, etc., become gray and spotted from mud, water, and soap used in washing. And to the average person it is a problem how to restore the former polish and brilliancy.

Brighten-All

solves the problem at minimum expense and labor. Dirt, dust, fly specks, ink marks, and that smoky appearance easily removed, restoring and leaving a highly polished, dust-free surface—hard, brilliant and free from that oily or sticky feeling. Brighten-All is not a varnish, but a beautifier and preserver of varnished surfaces. Acting as a varnish food, it will benefit and preserve the life of the finest finish. Packages of various sizes, to suit your convenience.

Where the varnish surface has been scratched, marred, or destroyed, time and money can be saved by applying to your furniture or woodwork

Uncle Hiram's Varnish

The new method—a modern discovery—no brush required. Applied with soft cheese cloth as easily as if one were washing or dusting his furniture. A child can do it. No expensive brush, no expert help, just a can of Uncle Hiram's Varnish, a piece of soft cheese cloth, and the surface is transformed and the original brilliant varnish surface restored. Especially adapted for autos, carriages, sleighs, restaurants, etc., where a quick drying result is desired.

THINK OF IT!
Water does not spot it white. Heat does not affect it—and it dries hard, ready to use, in 6 to 8 hours—giving a hard, mirror-like surface that will last indefinitely.

Mrs. Myra Allen, who had been visiting relatives on Beckley street, returned to her home in Warren Sunday.

Mrs. A. M. Whitney of Chelsea is a guest at the home of Mr. and Mrs. Henry Hodgson of Highland avenue.

Mr. and Mrs. W. A. Lane and son, Willis, have returned from Queen City park, where they have been spending a few days.

Mr. and Mrs. K. A. Lane and sons, Paul and Alfred, and Mr. and Mrs. Frank Colvin are spending a few days at Queen City park.

Miss Olive McKnight of 5 Forsyth place left yesterday for Concord, N. H., for a week's visit with her cousin, Mrs. R. C. Holmes.

Mrs. C. J. Allen and daughter, Hilda, left a few days ago for Burlington, and later they will go into camp at Queen City park with a sister, Mrs. Lavalette.

New England Order of Protection meets in Odd Fellows' hall to-night at 8 o'clock. Members are urged to attend, as these meetings are important.

Miss Edith Averill of Hudson, N. Y., is spending a two weeks' vacation with her parents, Mr. and Mrs. John W. Averill, and other relatives in Barre and vicinity.

Have your rubber-soled shoes and ox-fords resoled by us. We make a specialty of rubber soles. Genes, \$1.75; ladies, \$1.50. P. M. Depatie, 112 North Main street.

Dr. E. J. Foster of Waterbury Center, president of the Washington County Veterinary association, which is to hold its annual reunion at Dewey park early in August, was a business visitor in the city to-day.

Among the business visitors in the city yesterday and to-day were: Mr. and Mrs. C. B. Wright of Middlebury, J. H. Lavigne of Burlington, A. B. Lavigne of Winoski, C. W. Moore of St. Albans and F. R. Dow of Stowe.

With the three acts of vaudeville at the opera house to-night, the following pictures will be shown—"The Other Girl," a two-reel feature; "Her Lesson," a one-reel drama, full of action, and a swell comedy, called "More and More."

A Socialist orator from Milwaukee, Oscar Ameringer, is to appear in city park next Monday evening according to an announcement made to-day by the press committee of the Barre Socialist local. Mr. Ameringer has been given permission to speak from the music stand.

Signs pointing the auto path to Hotel Barre are to be located this week northwest and southwest corners of city park. Near the junction of Washington and North Main streets, a guide board is to be attached to the road directory that describes the distance to such points as Montreal, Burlington, Williamstown, White River Junction, etc.

Motor parties registered at Hotel Barre yesterday and to-day included, among others, the following: Mrs. A. Krons and maid of New York, M. A. Craig and Mrs. W. M. Newhoff of New York; J. B. Telavorn and J. E. Benoit of Montreal; Mr. and Mrs. H. F. Hoffman of Boston and G. F. Chandler and chauffeur of Stratford; F. H. Tirrell, Mrs. Batchelder, Miss Parker and A. F. Gray of Boston.

Posters advertising the second of the series of baseball games to be played between the Barre A. C. and the Italian A. C. made their appearance yesterday.

The first game was played July 5 at the trotting park when the Italian team won by a score of 4 to 1. For next Saturday the same batteries have been announced. Wessifer and Connolly for the Italian and Gilbert and Fowle for Barre. The game will be played on the Italian A. C. field off Berlin street this week.

Suadah temple, No. 140, D. O. K. K. of this city, is making pretentious plans for one of the semi-occasional temple gatherings to be held in St. Albans Aug. 17 during the annual encampment of the Vermont Knights of Pythias, which has been set for Aug. 17, 18 and 19. Members of the temple comprising the ceremonial team are drilling regularly for the festivities incident to the St. Albans meeting and a large delegation from uniform rank, K. P., is also getting into gear for the annual meeting. The membership of the local temple, which has had its home in Barre since organization, is scattered throughout the length and breadth of Vermont, with a slice of New Hampshire included. A number of candidates are expected to make their bow on the hot sands at St. Albans when the Suadah temple men arrive.

At the height of the electrical storm which raged with greatest violence in the country outlying Barre to the east, a driving horse owned by Supt. John McLeod of the Wells-Lamson Co.'s quarry, nearly came to grief and the prospects of saving the animal's life were not wholly reassuring. Frightened by the lightning flashes and frequent peals of thunder, the equine was performing very peculiarly in the pasture when a man, employed by Supt. McLeod to care for the steed while he is at work in the quarry came to call it to shelter. The horse paid little heed to the attentions of the caretaker, but continued its mad career about the corral. Before the rain abated, it had become entangled in several strands of barbed wire, with the result that Dr. W. S. Page, a local veterinarian, found it necessary to see up two severed arteries in the horse's leg.

The horse is one of a valuable pair owned by Mr. McLeod.

Interest in plans for a more systematic program of advertising Barre and its resources through the medium of guide boards has been materially quickened by the favorable attitude of the Board of Trade, the city council and the Granite Manufacturers' association. Both the Board of Trade and the manufacturers have appointed committees to investigate and report on the feasibility of carrying out the tentative plan. The summer and the council has assured these organizations of its readiness to assist whenever the proper time arrives.

It is proposed to locate guide boards on all of the main highways along the four borders of the state. Mention is to be made of the quarries and other attractive localities. Signs pointing the way to the quarries are to be located on all roads leading to the south and east of the city.

Things That Will Interest You

The general trade at this time of the year are the most interested in merchandise that is cool and comfortable for the warm days that are now upon us, and we are always interested in the things that will interest our trade, therefore at the present time we are putting every effort into getting together the things that will interest all. In many departments we are putting prices onto odd lots that will clean them up at once. These are goods that you will need right now, and the price will surely appeal to you as a good saving proposition.

Ladies' Separate Coats

We are putting prices on our spring and summer Coats that will clean them up very quickly. These are our season's best Coat values, where we have only one of a style left, and odd Coats that we have been able to pick up at a price.

Among this lot of Coats are some Covert Coats in the season's best style and value; are Coats that will wear like iron, and although they are of medium light color, they will not soil easily and can be washed.

There are Coats that sold at from \$10.00 to \$20.00 each, now at from \$5.00 to \$10.00—are just right for vacation Coats.

At much less than the regular price is a lot of odd Coats in Blues and Blacks; are the season's best values in Serges, Poplins and Gabardines.

In our garment department see the special waist values we are putting out at 49c, also house dresses at 79c and 98c each. These are mostly the Good Service make of dresses. We are cleaning out what we have left in Ladies' Tailored Suits at one-half price.

Waists and Dresses

In our Wash Dresses and Waists, we have some good values that will surely appeal to any who want a good morning Dress or Waist to finish out the season.

At 79c each is one lot of Percale House Dresses; are made in medium low neck and short sleeve. The style is good, and the quality is all right.

At 98c is a lot of odd Dresses that we have picked from our stock in qualities that sold at from \$1.19 to \$1.50, in sizes from 14 years to 53 bust. Now only 98c each.

At from \$1.98 to \$5.98 each, we have a few odd Silk and Wool Dresses in qualities that sold at from \$5.98 to \$12.50. If your size is here, you can surely get a good value.

At 49c each is a lot of odd Waists in White and colors. Some of them are the season's popular awning striped goods Waists, and are Waists that are worth \$1.00 each. At only 49c to clean up the lot.

Trunks and Suit Cases

We have just received a large shipment of the popular Straw Suit Cases. These are a Suit Case that is made for service as well as lightness in weight. These are the most popular vacation Suit Cases that were ever put out, at a price that appeals to all.

At \$1.00 we have a Straw Suit Case that is formed with leather board and has leather corners. This is a Case that we have sold quantities of, and they have proven very satisfactory.

In the better quality Cases, we have almost any quality you may desire, ranging in price from \$1.50 to \$3.00.

In the Leather Traveling Bags and Suit Cases, we can fill your demands in a satisfactory manner.

If in need of a good Trunk, we can give you a fine selection at prices that will interest you. See our line if at all interested.

The Daylight Store

TALK OF THE TOWN

See the special suitcase values at Abbott's. July sale waists, great bargains. See them at Vaughan's.

The Brighten-All reversible polish mop is two mops in one. Hooker's. Sadlier's, Keith avenue; hammocks, lawn and porch furniture, refrigerators, ice chests, etc.

A regular meeting of the L. A. A. O. H. will be held in R. of C. hall Wednesday at 7:30. Juveniles at 4:30.

Francis Smith left the city last night for Springfield, Mass., where he expects to make an extended stay with friends.

Fred Millan of Elm street left this morning for St. Albans on a business trip connected with the Vermont Tire & Rubber Co.

Mrs. Eugene Ingalls, who has been visiting relatives and friends in the city for the past few days, returned to her home in North Brook, where she has been spending a few days at the home of her uncle, E. C. Brock, of Washington street, returned last evening to their home in Newbury.

A. J. Stewart of Park street has returned from a trip through the White Mountains of New Hampshire, having accompanied his daughter, Miss Katherine Stewart, to Mapewood, where she will pass the remainder of the summer.

Next Saturday afternoon the aldermanic committee of the whole will have one of its periodic between meetings and this time the setting is to be at the east end of Merchant street, where property owners have protested against the inadequacy of water and sewer accommodations. In stating their grievance, the taxpayers in that vicinity have deplored the alleged neglect of their neighborhood and among other complaints it was stated that the snow plow seldom touched the west end of the street. Last winter, it appears, the plow made only one appearance on the extension. Now the residents have revived interest in their year-old petition for a sewer and water connections with the result that the council committee is to investigate and make report of its findings at the regular meeting next Tuesday night.

TALK OF THE TOWN

Come to Vaughan's for lace. Plenty of Tudor porch shades now, in all sizes, at Hooker's.

A cooling shave in a sanitary environment at Ross' Depot square barber shop. Maxwell Fosskett of Rochester is employed as an assistant in the Cummings & Lewis pharmacy.

Mrs. O. S. Willey of South Main street is spending a few days in Northfield, as the guest of Mr. and Mrs. George Cady.

Miss Mattie Connon of Syracuse, N. Y., is passing several days with her sister, Mrs. Margaret C. Cable, of Merchant street.

Mrs. Helen Batchelder of Liberty street left yesterday for Plainfield, where she will make a week's visit with friends and relatives.

The regular monthly meeting of the trustees of the Barre City hospital will be held in the school commissioners' rooms Wednesday evening at 8 o'clock.

Mr. and Mrs. H. W. Knight of 123 Hill street, who have been spending a short time visiting at North Hero, returned to their home in this city to-day.

Justin Barber of the East Montpelier road, who has been making an extended visit with friends and relatives in South Royalton, returned to his home yesterday.

William Jamieson of North Main street, who was called to Fredericton, New Brunswick, on account of the illness of his sister, returned to his home in this city last night, after a two weeks' visit there and other places in Canada.

An ice cream social and lawn party will be held at Cobble Hill grange hall Thursday evening, July 15. Music by Carroll's orchestra. Everybody invited. Don't forget the good old times you have had at Cobble hill, and come. Ladies of the grange please bring cake or wafers.

Mrs. Roy Darling of Lowell, Mass., who has been visiting friends at Greensboro for the past two weeks, arrived in the city yesterday and will make a short visit with her mother, Mrs. John McDonald, of Liberty street, before returning home.

Years of Experience

and a willingness to rectify all mistakes stand behind the guarantee of the goodness of all the meats we sell. The promptness with which we deliver the goods matches the painstaking service found at counters.

WE SHOULD ALL RESPONSIBILITY! OUR MEATS ARE JUST AS GOOD AS THEY CAN BE!

"Green Mountain Brand" Sausage, lb. 16c
"Green Mountain Brand" Bacon, whole, lb. 20c
Boneless Smoked Shoulders, lb. 18c
"Green Mountain Brand" Ham, the only Ham sold in Barre that has the real corn-cob flavor.
Minced Ham, that's meeting with great favor.
Pickled Pigs' Legs, 10c lb., 3 lbs. for 25c
German Frankforts, lb. 18c
Corned Beef—Some extra good values this week.
Fresh Vegetables, all kinds to go with our famous Corned Beef.
Fancy Grape Fruit, 3 for 25c
BUY RED CHERRIES this week. They are going by fast.
BLUEBERRIES, per basket 16c
GOOSEBERRIES, per box 10c

The Smith & Cumings Co.

RATS SPREAD DISEASE

Because of Their Habits of Migration Over Wide Areas.

That the migratory habits of rodents have a bearing upon the spread of disease is not generally known, but the United States public health service, as a result of experiments conducted in plague epidemic work at New Orleans, asserts that such is the case. This is but another illustration that the field of preventive medicine is especially broad, and investigators therein must be thoroughly familiar with the life history and habits of flies, mosquitoes, ticks, and even rodents.

Several hundred captured rats were marked for purposes of identification by having their ears punched, care being taken not to render them conspicuous, as fellow rodents wage relentless warfare upon those which appear different from their kind. They were then released in the heart of the city, and allowed to shift for themselves. Trapping was carried on in all sections, and each rat was labeled as to the locality caught. Fully one-quarter of the rats made widespread excursions, that is they were recaptured at points from one

to four miles from where they were liberated. In one instance, a rat traveled 19 blocks, crossing one of the widest and busiest streets in the city, where there was no subterranean passage, and was retaken within 60 hours from the time of its liberation. From the experiment it is concluded that the semi-domesticated rat has migratory habits similar to wild animals, and that these habits are influenced by abundance or scarcity of food, facility for harborage, or the presence of natural enemies. It is also believed that certain inexplicable instincts tend to make the rat a wanderer. That in this instance the "homing" instinct was not responsible for the migration was clearly proven.

This migratory habit of rodents explains many facts connected with the dissemination of plague; it will also doubtless prove enlightening to those who have attempted to exterminate rats for economic reasons. The Indian plague commission was of the opinion that rats seldom journeyed from one section of the city to another, but the conclusion of the public health officials is quite the opposite. As a measure of the success of trapping operations, it is interesting to note that over one-half of the rodents liberated were recaptured within a month.
